Culture, Arts, and Sports Management System

Proposed System Features and User Functions
Bukidnon State University – Office of Culture, Arts, and Sports

Purpose: This document lists proposed system features based on the identified concerns involving activity dissemination, student participation, requirements, costumes, equipment, and participant records. Features should be validated with the office before implementation.

User Account and Access

Feature	What the feature does for the user
Login and Logout	Allows users to securely access the system using their registered account and exit their session when finished.
User Registration	Allows students or authorized personnel to create an account by providing the required information.
Role-Based Access	Displays only the features and information permitted for the user's role, such as student, staff, coordinator, or administrator.
Profile Management	Allows users to view and update their personal information, contact details, and account credentials.

Activity and Event Management

Feature	What the feature does for the user
Activity and Event Listings	Allows students to view current and upcoming culture, arts, sports, and school activities.
Activity Details	Displays the activity title, description, date, venue, organizer, eligibility, and participation instructions.
Activity Creation and Editing	Allows authorized staff to create, update, and manage activity information.
Activity Status	Shows whether an activity is upcoming, ongoing, completed, cancelled, or closed for registration.
Activity Calendar	Presents scheduled activities in a calendar format so users can easily track important dates.

Announcements and Dissemination

Feature	What the feature does for the user
Announcements	Allows office staff to publish official announcements, reminders, and updates for students.
Notifications	Notifies users about new activities, changes in schedules, approval results, and requirement deadlines.
Search and Filtering	Allows users to find activities and announcements by category, date, status, or keyword.

Participation Management

Feature	What the feature does for the user
Online Activity Registration	Allows students to register their intention to participate in a selected activity.
Participation Eligibility	Displays the qualifications or conditions that students must meet before joining an activity.
Registration Status Tracking	Allows students to check whether their registration is pending, approved, rejected, or completed.
Participant Approval	Allows authorized staff or coordinators to review and approve or reject student participation requests.
Participant Lists	Allows staff to view, organize, and maintain lists of participating students.
Year-Level Organization	Groups players and participants according to year level, section, course, team, or category.

Requirements Management

Feature	What the feature does for the user
Participation Requirements	Displays the documents, forms, clearances, or other requirements needed for an activity.
Requirement Submission	Allows students to upload or submit the required documents through the system.
Requirement Verification	Allows staff to review submitted requirements and mark them as verified, pending, or rejected.
Missing Requirement Tracking	Shows students which requirements are incomplete or still need correction.
Requirement Deadline Reminders	Reminds students about approaching deadlines for required submissions.

Costume and Equipment Management

Feature	What the feature does for the user
Inventory Catalog	Displays the costumes and equipment managed by the office, including their names, descriptions, and quantities.
Availability Checking	Allows students and authorized personnel to check whether a required costume or equipment item is available.
Inventory Status	Shows whether an item is available, reserved, borrowed, damaged, under maintenance, or unavailable.
Reservation Request	Allows authorized users to request costumes or equipment for a specific activity or schedule.
Borrowing and Returning Records	Records who borrowed an item, when it was borrowed, its expected return date, and when it was returned.
Inventory Updates	Allows staff to add, edit, remove, and update the quantity and condition of inventory items.

Coordination and Scheduling

Feature	What the feature does for the user
Activity Scheduling	Allows coordinators to plan activity dates, venues, schedules, and assigned personnel.
Venue and Resource Coordination	Helps staff identify and coordinate the venues, costumes, and equipment needed for an activity.
Coordinator Assignment	Allows administrators or office staff to assign responsible coordinators to activities.

Feature	What the feature does for the user
Schedule Conflict Checking	Helps identify overlapping schedules involving activities, venues, or equipment.

Records and Reports

Feature	What the feature does for the user
Student and Player Records	Maintains organized records of students and players who participate in office activities.
Activity Participation History	Allows users or authorized staff to view previous activities and participation records.
Inventory Reports	Generates summaries of available, borrowed, damaged, and unavailable costumes or equipment.
Participation Reports	Generates reports showing registered and approved participants by activity, year level, or category.
Export and Printing	Allows authorized staff to export or print lists and reports for documentation and coordination.

Administration and Security

Feature	What the feature does for the user
User Management	Allows administrators to create, update, deactivate, and manage user accounts.
Activity Category Management	Allows administrators to manage categories such as culture, arts, sports, intramurals, and other school activities.
Audit Trail	Records important system actions, such as updates to activities, inventory, requirements, and user records.
Data Backup and Recovery	Supports the protection and restoration of important system data when needed.
